

2020 NASS Cropland and Pastureland Rental Rates

Patrick Kayser, Land Use-Value Assessment, Analyst, Department of Agricultural and Applied Economics, Virginia Tech; Stephanie Hentemann, Undergraduate Research Assistant in Department of Agricultural and Applied Economics, Virginia Tech; Jennifer S. Friedel, Land Use-Value Assessment, Director, Virginia Tech; Gordon E. Groover, Extension Economist, Farm Management, Department of Agricultural and Applied Economics, Virginia Tech; Lex Bruce, Research Associate, Department of Agricultural and Applied Economics, Virginia Tech

USDA National Agricultural Statistical Service (NASS) has released 2020 cash rental rates for irrigated and non-irrigated cropland and pastureland for Virginia counties and cities. Provided below are:

- Table 1 – 2020 rental rates by jurisdiction for irrigated and non-irrigated cropland and pastureland
- Table 2 – Combined counties rates by crop reporting district
- Table 3 – Jurisdictions within each NASS crop reporting district

NASS rental rates are annual values reported in \$/acre per year summarized from NASS surveys for the crop year 2020. This data can be found at <http://quickstats.nass.usda.gov/>. If there are sufficient number of responses to meet NASS non-disclosure requirements for a jurisdiction then those associated values are published. For example, in Table 1 the specific rental rate for cropland in Amherst is \$30.50 per acre. When there are not enough responses in a jurisdiction to meet NASS non-disclosure requirements, then all the data for the non-disclosed jurisdictions within a crop reporting district is summarized and published as a “Combined Counties” value. Table 2 lists the Combined Counties and State averages.

For jurisdictions in the Eastern and Southeastern Crop Reporting Districts (*see* Table 3), few individual counties had sufficient responses to provide county-level pasture land values; thus, the Combined County value is published for these counties not meeting the NASS non-disclosure requirements. For example, in Table 1 the rental rate for pasture land in Accomack is \$39.00 per acre which is the combined value for Eastern District counties. Combined Counties rental rates cut across jurisdictional lines and may not reflect all local market conditions.
